AMENDMENT

In response to the Office Action Dated 11/30/04, please amend the above application as follows:

Cancel Claims 1-7;

Add the following new Claim 8:

8(newly added). A stationary phase for liquid chromatography analysis using a mobile phase, said stationary phase comprising  
a rigid supporting material having a surface;  
an ion bearing functional group and a hydrophobic functional group connected together;

said ion bearing functional group being chemically attached directly to the rigid supporting material and said hydrophobic functional group being indirectly connected relative to the rigid
